Bluewater Growing Project  
5555 Mandaumin Rd, RR1  
Wyoming, ON, N0N 1T0

To the wonderful partners of the Bluewater Growing Project,

It is with deep gratitude that we thank you for your generous gift of \$18,100 to Tearfund Canada's Food Security and Livelihoods Training program in East Africa. Your continued commitment—now in its third year—is a profound encouragement to our team and to the communities walking the journey out of poverty alongside local partners.

In a world where hardship too often overshadows hope, your decision to once again invest in this work affirms your belief in the power of church-based, community-led transformation. Your generosity strengthens churches as they serve their neighbours with compassion, dignity, and practical support, addressing the root causes of poverty and injustice.

Through your partnership, communities are being equipped to improve livelihoods, strengthen food security, and foster resilience in the face of ongoing challenges. Families are finding renewed hope, and reflecting God's love in tangible and transformative ways, such as conservation agriculture training.

We look forward to sharing more about the impact of your generosity. Thank you for your faithfulness, generosity, and shared commitment to seeing communities flourish. We are honoured to continue this journey with you and deeply value your partnership.

With warmest regards,

**Roberta Pronteau**  
**Director of Philanthropy**
